

5.5 Evolution SUI 194 – Meltemi

SUI 194 was built by Christof Wilke & co. 1995 in Leissingen (Switzerland). Hull is constructed as sandwich glass epoxy with PVC foam. Designers are Philippe Meier (SUI) and Sebastian Schmidt (SUI). SUI 187 (today GER 88) and SUI 188 have been built from the same mould but SUI 194 has a keel with a glued trim tab. SUI 195 „Fortuna“ has been built afterwards and is an exact sister ship.

Jürg Menzi started his winning strokes successfully with SUI 194 „Marie-Françoise X“ and won 10 Swiss Championships.

Martin Egli, Thomas Escher and Walther Kielholz bought 1999 SUI 194 „Midlife Crisis“ as Jürg Menzi ordered SUI 201.

2002 the entire Rig was replaced with a new carbon mast, carbon main-boom and carbon spinnaker-boom by Christof Wilke.

The current owners Simon Pfändler and George Prapopoulos bought SUI 194 „Meltemi“ 2003 as Martin Egli ordered SUI 211 from Christof Wilke.

2009 Christof Wilke & co. modernized Kiel and Ruder. With this SUI 194 is today a very competitive racer that can strike modern built 5.5's regularly. Recent lap results at the Swiss Open Championships prove this (2 2015, 2/5/5 2013, 3/5/6 2012, 2 2011).

SUI 194 has been maintained by Christof Wilke & co. She's in top condition, fully equipped and ready for competitive racing or relaxing day sails.

SUI 194 has always been a trailer ship and was only used for racing. She has been stored indoors and only launched for short term sailing.

SUI 194 is for sale as the current owners are taking over SUI 211.

Technical data

| | |
|----------------------------|---|
| Sail Number & Name of Boat | SUI 194 Meltemi |
| Designers | Philippe Meier & Sebastien Schmidt |
| Boatyard/Boat Builder | Christof Wilke & co. Boatyard (SUI) |
